Definitions

Administrative Finding—A Finding is a violation of a specific compliance requirement contained in law; regulations; national policies; FOA; Uniform Guidance or OMB Circulars; the grant terms and conditions; ETA policy guidance, including Training and Employment Guidance Letters (TEGLs); and/or the grant agreement.

Area of Concern— An Area of Concern is used when there is a potential issue, challenge, or situation identified that does not yet violate one of the sources listed below, but left unchecked, could elevate to a finding or, at a minimum, negatively impact outcomes. Reports typically include a recommendation to address the situation at hand. Areas of concern are primarily for technical assistance purposes to prevent violations of:

- a. Federal Law
- b. Federal Regulations
- c. Grant agreement
- d. Contract agreement
- e. Formal state or local policy

Desk Reviews—Reviews made during the monitoring process for the purpose of collecting and analyzing information and to support on-site reviews/monitoring. Desk reviews analyze existing data such as required monthly financial reports, vouchers, contracts, budgets, case management system data, and prior audits and monitoring reports.

Disallowed Costs—Disallowed costs under WIOA and Uniform Guidance include unallowable, unallocable, and unreasonable expenses.

Effective or best practice is a strategy, approach, process, or product in one or more key areas of implementation: governance, administration, service design and delivery, etc. that is sufficiently effective and/or innovative to warrant highlighting in the report.

Employee/client misconduct is considered as actions occurring during or outside work hours that reflect negatively on USDOL, the State of Oklahoma, or the WIOA program. Misconduct may include, but is not limited to, conflict of interest involving outside employment, business, and professional activities, the receipt or giving of gifts, fees, entertainment and favors, misuse of Federal property, misuse of official information and such other activities as might adversely affect the confidence of the public, as well as serious violations of Federal and State laws.

File Reviews—Reviews of a sample of participant's files to determine compliance with required federal, state, and local laws, policies, and procedures.

Finding—Noncompliance with policy, guidance or requested procedural steps.

Fraud, Misfeasance, Nonfeasance or Malfeasance Fraud—Misfeasance, nonfeasance or malfeasance should be considered broadly as any alleged deliberate action that is in violation of federal statutes and regulations. This category includes, but is not limited to, indications of bribery, forgery, extortion, embezzlement, theft of client checks, kickbacks from clients, intentional payment to a contractor or service provider without the expectation of receiving services, payment to ghost enrollees, misuse of appropriated funds, and misrepresenting information in official reports.

Gross Mismanagement/Gross Negligence is considered as actions or situations arising out of management ineptitude, oversight, or a disregard of the need to exercise reasonable care, leading to substantial violations of WIOA processes, regulation, or agreement/contract/grant provisions which could severely hamper the accomplishment of program goals. These include situations that lead to waste of government resources and could jeopardize future support for a particular project. This category includes, but is not limited to, non-auditable records, unsupported costs, highly inaccurate fiscal or program reports, payroll discrepancies, payroll deductions not paid to the Internal Revenue Service, failure to carry out basic required functions, and the lack of good internal control procedures.

Misapplication of funds is considered as use of funds, assets, or property not authorized or provided for under WIOA regulations, grants, agreements, or contracts. This category includes, but is not limited to, nepotism, political patronage, use of clients for political activities, ineligible clients, conflict of interest, failure to report income from federal funds, violation of agreement/contracts/grant procedures, and the use of federal funds for other than specified purposes.

On-Site Reviews—The fundamental component of monitoring reviews, consisting of data collection techniques using formal monitoring guides. On-site reviews allow for the verification of items contained in the contract, grant agreement, or other items identified in the desk review.

Questioned Costs—Questioned costs are Federal funds expended in violation of provisions of the applicable laws, regulations, or award terms, or an expenditure that is not supported by adequate documentation to show that it is an allowable cost. Questioned costs also include what appear to be unreasonable costs, even if they are not specifically unallowable.

Report Observation—At the time of examination, the GCWDB Monitors may indicate key actions, processes, or items noticed or sampled. Observations are practices or processes that are particularly effective or efficient and/or may be replicated. These observations may also be ineffective or inefficient practices or processes that should be re-evaluated. These observations may also include questionable operational or business practices that must be noted for documentation purposes.

Substantial Violation is a severe violation of the provisions of WIOA Title I-B, which may include, but is not limited to, fraud, misfeasance, nonfeasance, malfeasance, misapplication of funds, gross mismanagement, gross negligence, failure to take corrective action, failure to meet performance goals in consecutive years, lack of sustained fiscal integrity, and failure to perform the duties required by the WIOA Act.

Sustained Fiscal Integrity means for the purpose of determining initial and subsequent local area designation, that the State/Grant Officer has not made a formal determination that either the grant recipient or any other entity charged with expending local area funds misexpended such funds due to willful disregard of the requirements of the provision involved, gross negligence, or failure to comply with accepted standards of administration for the 2-year period preceding the determination.

- On-site visits to service provider locations.
- Interviews with staff, participants, and stakeholders.
- Sampling of participant files, financial records, and other documentation.

While these are the primary methods, GCWDB may use additional techniques as necessary to ensure comprehensive oversight. Participant files, documentation, and other records will be reviewed both virtually and on-site using tools such as the Virtual Case Management System.

Reporting

Exit Conference

Upon completion of the monitoring review, an exit conference will be conducted to discuss any preliminary issues or potential findings. The participants in the exit conference may include GCWDB's Compliance Monitor(s), representatives from the Service Provider, and other relevant stakeholders as needed. The purpose of the conference is to ensure transparency, provide an opportunity for clarification, and discuss possible corrective actions.

Following the exit conference, the GCWDB Compliance Monitor(s) will prepare a brief written summary of the issues discussed. This synopsis will be provided to the Service Provider for reference and further consideration.

Monitoring Report

A comprehensive written report summarizing the results of the monitoring review will be prepared by the GCWDB Compliance Monitor(s) as soon as possible after the on-site review, typically within 30 days. The report will provide a detailed analysis of the review and may include the following components:

1. Scope and Purpose of the Review:

- A clear statement of the objectives and the areas or programs reviewed.

2. Monitoring Methods:

- A description of the techniques and tools used during the review, such as file sampling, interviews, site inspections, and system reviews.

3. Service Provider Strengths:

- A summary of exemplary practices or strengths identified during the review, with consideration for their potential promotion as best practices across the state.

4. Findings of Non-Compliance:

- A detailed summary of any instances of non-compliance, including citations of the applicable policies, procedures, rules, regulations, or laws.

5. Monitoring Observations:

- Observations that may not constitute formal findings but are worth noting for awareness or improvement.

6. Suggestions for Program Improvements:

- Recommendations to enhance service delivery, improve compliance, or address gaps in current processes.

7. Required Corrective Actions:

- Specific actions the Service Provider must take to address identified findings, with deadlines for implementation and resolution.

Detailed Findings of Non-Compliance

Each finding of non-compliance will include the following information:

1. Compliance Requirement:

- A detailed description of the specific requirement that was not met, along with a citation of the relevant policy, rule, regulation, or law.

2. Method of Determination:

- An explanation of how the deficiency was identified, such as through:
 - i. Observation of program activities.
 - ii. Review of records in the online case management system.
 - iii. Examination of program documentation.
 - iv. Interviews with customers or Service Provider staff.

3. Extent of Non-Compliance:

- Quantification of the deficiency, wherever possible, to illustrate the scale of the issue. For example:
 - i. "Six out of 15 participant files sampled did not include the required documentation."

4. Cause(s) of Non-Compliance:

- An analysis of the underlying cause(s) of the issue, when identifiable, to support corrective actions and prevent recurrence.

Corrective Actions

GCWDB Program Auditing Manager will issue a Monthly Monitoring Report outlining findings and any findings of questioned costs as well as the corrective action that must be taken to resolve the findings. A response to the Monthly Monitoring Report must be received back to the Program Auditing Manager and GCWDB staff within 14 business days of the issuance of the Monthly Monitoring Report or the OJT/WEX Worksite Monitoring Report; and within 30 business days of the issuance of the annual monitoring report. The response must be entered

GCWDB Monitoring Policy

into the Monthly Monitoring Report document in the space indicated and must include all supporting documentation that could resolve the issue as well as any other applicable action that will be taken. Observations will not require a response; however, areas of concern and findings would necessitate a response from the appropriate party. An exit conference will be offered upon the issuance of each monitoring report. Upon request of the Contracted Service Provider, the GCWDB monitoring team will meet with the contractor to review and discuss any questions with the monitoring report.

1. Service Provider Leadership should be responsible for correcting the deficiencies in their respective cases;
2. The Operations Manager and the Director of Workforce Operations are ultimately responsible for ensuring corrective actions are taken when problems are found and supplying all documentation/proof of correction for each issue found by the monitor/auditor and corrected by the Case Manager.

The appropriate party shall have 2 attempts to address all issues found with the report or have a plan in place for a resolution that has been approved by the GCWDB CEO/ED, or designee. Further responses may be allowed at the discretion of the GCWDB CEO/ED, or designee. A response to the Monthly Monitoring Report must be received by GCWDB staff within 14 business days with all identified monitoring findings or observations having been addressed. The GCWDB Program Auditing Manager and staff will review the response, and all documents submitted. If all findings are resolved, or upon the completion of the allowable number of response attempts, the GCWDB Program Auditing Manager at the direction of the Director of Programs, with the approval of the CEO will issue a Final Determination.

If issues remain unresolved, a formal meeting between GCWDB staff, the appropriate entity being monitored and, as appropriate, representatives from the GCWDB and/or Fiscal Agent will be conducted to resolve the findings. Remaining Questioned Costs will be submitted to the Fiscal Agent for recovery and/or resolution. In the event a monitoring review results in questioned costs or a negative administrative finding against the GCWDB staff, WIOA Service Provider or the Fiscal Agent, the GCWDB will work OESC and the CLEO to resolve the issue.

All finalized monitoring reports, including corrective action correspondence, will be maintained in a centralized location accessible and available as official GCWDB documents at the GCWDB main office by the GCWDB Program Auditing Manager and GCWDB staff.

Throughout the course of the review of case files and monitoring process, it is understood that circumstances beyond the GCWDB staff, Fiscal Agent, and/or appropriate entity being monitored may arise that could derail the timeframes outlined in this policy. If such an occurrence happens, arrangements between the parties affected may be made without penalty and with no interference of any measures or reporting requirements as long as the discussion

*GCWDB is an Equal Opportunity Employer/ Program. Auxiliary aids and services are available upon request to individuals with disabilities.

GCWDB Monitoring Policy

and arrangements are made prior to the due dates. If an extension is required by the contracted service provider, that extension must be requested in writing, in advance of the due date. Approval of that extension will be made by the GCWDB CEO/Executive Director or designee.

In addition to the annual monitoring and required formal monitoring reviews, oversight and random programmatic reviews will be conducted when necessary to address issues as they may arise, year-round, via program monitoring/audit and compliance staff, to ensure compliance with applicable requirements are being met. When random monitoring is conducted, written reports will be provided to appropriate staff. The timelines and process are the same as regular quarterly monitoring.

Follow Up

Appropriate GCWDB Monitoring Staff shall conduct follow-up monitoring on those deficiencies which have been addressed in the monitoring report within a reasonable amount of time, to ensure that proper corrective actions have been taken. Persistent or unresolved issues may result in further action, including technical assistance, additional monitoring, or termination of contracts.

Appeals Process

If the service provider/subrecipient disagrees with the Final Determination, they have 15 days from receiving the determination to request an appeal or 2 business days after an informal resolution conference. Once the appeal is received, the GCWDB Policy and Compliance Manager will review it and schedule a hearing within 30 days, unless all parties agree to extend the deadline for additional negotiations. In some cases, the GCWDB CEO/ED can waive the hearing requirement if immediate action is necessary.

During the hearing, the service provider/ subrecipient must provide evidence showing that they complied with all applicable laws, regulations, and policies. The decision from the GCWDB, issued within 30 days after the hearing record is closed, is final and binding.

Any costs associated with legal assistance, accounting, or representation during the appeal cannot be covered by grant or contract funds received from GCWDB. This includes costs for experts, accountants, or attorneys.

Support Documentation

Support documentation may be requested from the Service Provider from time to time to validate responses to correct actions. In providing the support documentation each supporting document shall have the issue number identified on the report and the appropriate participant identification number of the participant for which the documentation is referencing.

Technical Assistance

The GCWDB Service Provider or One-Stop Partner may request technical assistance from the GCWDB by making a request in writing to the GCWDB CEO/ED. The request should describe the type of assistance requested. The GCWDB CEO/ED will reply to any such request after considering GCWDB's priorities and available resources.

Equal Opportunity and Nondiscrimination Statement

All Recipients, and Sub-recipients / Sub-grantees must comply with WIOA's Equal Opportunity and Nondiscrimination provisions which prohibit discrimination on the basis of race, color, religion, sex (including pregnancy, childbirth, and related medical conditions), national origin (including limited English proficiency), age, disability, political affiliation or belief, or, for beneficiaries, applicants, and participants only, on the basis of citizenship status or participation in a WIOA Title-I financially assisted program or activity.

Addenda / Revisions

The GCWDB Chief Executive Officer is authorized to issue additional instructions, guidance, approvals, and/or forms to further implement the requirements of policy, without making substantive change to the policy, except in situations when a new or updated state and federal guidance is issued.
